

AQUA-AID**AcidipHy™ L****Irrigation Water
Acidifier****GENERAL INFORMATION**

AcidipHy L is a unique blend of acidifying agents combined with a surfactant and manganese sulfate. **AcidipHy L** is designed to be applied either through the irrigation system or in a tank spray. This combination of chemistries is formulated to provide the superintendent with a proactive approach for:

- Lowering pH of irrigation water and soil profile water
- Neutralizing the negative effects of high bicarbonate and carbonate levels in irrigation water and the soil solution
- Maintaining the solubility of Ca and Mg in irrigation and soil water
- Improving the ability of soil-applied Ca-based amendments to produce soluble Ca
- Dissolving calcium carbonate and magnesium carbonate salts on the surface (crusting) and in the soil profile

CAUTION

KEEP OUT OF THE REACH OF CHILDREN.
MAY BE HARMFUL IF SWALLOWED.
EYE IRRITANT.

Contains non-ionic wetting agents and surfactants. In case of eye contact, flush eyes with water. If swallowed, give water or milk. Call a physician.

**CONDITIONS OF SALE
WARRANTY AND LIMITATION OF LIABILITY**

AQUA-AID, INC. (Seller) warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

- 55 Gallons (208.2 L)
- 250 Gallons (946.4 L)

NET WEIGHT

- 22.79 Lbs (10.34 Kg)
- 45.58 Lbs (20.67 Kg)
- 273.5 Lbs (124.0 Kg)
- 501.4 Lbs (227.4 Kg)
- 2279.0 Lbs (1033.7 Kg)

ACTIVE INGREDIENT: Blend of Synthetic and Organic Acids with Manganese Sulfate

NOT A PLANT FOOD INGREDIENT

DIRECTIONS FOR USE GENERAL TURF

Greens, Tees, Fairways, Lawns and Sports Turf

Water and soil samples should be taken and analyzed on a routine basis by a reputable lab. Apply and immediately irrigate to field capacity to flush salts. **AcidipHy L** may be applied monthly or as necessary to maintain desired salt and bicarbonate levels. Apply at a minimum dilution rate of 50 parts water to 1 part **AcidipHy L**.

Sprayable Application: Apply 1 to 4 quarts of **AcidipHy L** per acre in a 1 to 2 gallon spray solution per 1000 sq. ft. Apply sufficient water to move product into the soil profile

Irrigation Injection Application: Based on irrigation water hardness, inject 1 to 9 gallon of **AcidipHy L** in 50 to 450 gallons of water per acre every month or as needed.

50 Bicarbonate ppm	1 gal per acre
100 Bicarbonate ppm	2 gal per acre
200 Bicarbonate ppm	4 gal per acre
300 Bicarbonate ppm	6 gal per acre
400 Bicarbonate ppm	8 gal per acre
450 Bicarbonate ppm	9 gal per acre

DO NOT combine **AcidipHy L** in the spray tank with pesticides or fertilizers unless prior use has shown the combination physically compatible, effective and non-injurious under local conditions.

AQUA-AID GUARANTEE

AcidipHy L comes with a 100% money back guarantee. If you are not satisfied with AcidipHy L for any reason after trying the product at recommended rates, AQUA-AID, INC. will refund your money in full.
